Dashboards & Reports

Integrated Threat Intel

Cyber Risk Score

Multi-Tenant

XDR Auto Response

EXTENDED DETECTION AND RESPONSE (XDR)

- Unified data correlations/collection from EDR, SOC, SIEM, SOAR
- Analysis of both internal and external traffic
- Aggregated data baseline for threat hunting
- Machine learning-based detection
- Automated response to cyber threats

ON-PREMISE MONITORING

- Monitor multiple sources for greater visibility and security
- Servers / Workstations / Firewalls
- Hundreds of supported integrations
- Supports key industry and regulatory compliance standards
- Powered by: AgileBlue Agent and Virtual Sensor

CLOUD MONITORING

- Monitor all data for AWS, Azure, Google Cloud Platforms
- Support for productivity suites Office 365, Google Workspace
- Enables ultra-fast event gathering of log events
- Support for misconfigurations and policy violations
- Support for hybrid and multi-cloud
- All data collected by AgileBlue Agent and Direct Cloud API

ENDPOINT SECURITY (EDR)

- Fully Managed Endpoint Security Platform
- Centralized detection with fast and informed response
- AI and behavioral-based prevention and blocking
- Avert threats such as Malware and Ransomware
- Secure hybrid environments and protect while offline
- Protect your Windows, macOS, and Linux endpoints

APPLICATION MONITORING

- Detect cyber events in your business-critical applications
- Monitor your existing Endpoint Security Platform
- Up to date alerts for:
 - System security logs
 - External attackers or malicious insiders
 - Unauthorized access or account takeover

VULNERABILITY SCANNING

- Asset discovery and vulnerability scanning of all devices
- Complete visibility of network assets and vulnerabilities
- Set for continual or scheduled scans
- Vulnerability risk ranking to prioritize actions
- Dynamic Network Health Score to assess risk

READY TO GET STARTED?

We're here to help! Send an email with your information and a member from our team will be in touch to demonstrate how Clarity can detect cyber threats before you're breached.
